|--------------------------------------|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1                                  | Description of first aid measures                           |                                                                                                                                                                                                                |
|                                      | General notes:                                              | If the suggested first aid measures do not prove sufficient, seek medical attention.                                                                                                                           |
|                                      | Following inhalation:                                       | Carry the afflicted person out of the contaminated area into a well-ventilated area or out for fresh air. In case of difficult breathing, provide the afflicted person with oxygen.                            |
|                                      | Following skin contact:                                     | Remove contaminated clothing. Immediately wash with plenty of water for at least 20 minutes. Seek medical assistance if the symptoms of irritation remain.                                                     |
|                                      | Following eye contact:                                      | Rinse out with plenty of water with the eyelid held wide open for at least 20 minutes. If the symptoms remain, immediately call in ophthalmologist.                                                            |
|                                      | Following ingestion:                                        | Rinse the mouth thoroughly with 1-2 glasses of water. Immediately consult a physician and show the container or label. In case of swallowing large quantities, transport the afflicted person to the hospital. |
|                                      | Self-protection of the first aider:                         | -                                                                                                                                                                                                              |
| 4.2                                  | Most important symptoms and effects, both acute and delayed |                                                                                                                                                                                                                |
|                                      | Following inhalation:                                       | Depending on concentration and exposure time, it may lead to mucosa irritation, cough, and dyspnea.                                                                                                            |
|                                      | Following skin contact:                                     | Depending on concentration and exposure time, it may lead to irritation, rash, skin drying and skin cracking.                                                                                                  |
|                                      | Following eye contact:                                      | Depending on concentration and exposure time, it may lead to irritation, tearing, redness and pain.                                                                                                            |

|               |                                  |                      |              |          |   |

|          | Other skin protection:                                  | During everyday work use cotton clothing (EN 340) and suitable footwear, such as rubber boots (EN 20345) or shoes that cover the entire foot. In case of spilling hazard, use clothing made of impermeable material suitable for protection from liquid chemicals (Viton, PVC, himex) and footwear made from the same material.                                                       |
| 8.2.2.3. | Respiratory protection:                                 | Protective full face mask (EN 136) or half mask (EN 140) equipped with a filter for organic vapors, type "A" (boiling point >65°C) according to EN 14387) used when concentration levels exceed GVI.                                                                                                                                                                                  |
| 8.2.2.4. | Thermal hazards:                                        | No information available                                                                                                                                                                                                                                                                                                                                                              |
| 8.2.3.   | Environmental exposure controls                         |                                                                                                                                                                                                                                                                                                                                                                                       |
|          | Substance/mixture related measures to prevent exposure: | See Section 6                                                                                                                                                                                                                                                                                                                                                                         |
|          | Structural measures to prevent exposure:                | Use modern equipment.                                                                                                                                                                                                                                                                                                                                                                 |
|          | Organisational measures to prevent exposure:            | Adapt the work process to the required working conditions of the workplace.                                                                                                                                                                                                                                                                                                           |
|          | Technical measures to prevent exposure:                 | See Section 6                                                                                                                                                                                                                                                                                                                                                                         |

## 12.2 Persistence and degradability

### Abiotic degradation

|              | Degradation half-lives   | Method                   | Evaluation               | Note |
|--------------|--------------------------|--------------------------|--------------------------|------|
| Marine water | No information available | No information available | No information available | -    |
| Fresh water  | No information available | No information available | No information available | -    |
| Air          | No information available | No information available | No information available | -    |
| Soil         | No information available | No information available | No information available | -    |

### Biodegradation

| % Degradation | Time (days)              | Method    | Evaluation               | Note                  |
|---------------|--------------------------|-----------|--------------------------|-----------------------|
| 94% (ethanol) | No information available | OECD 301E | No information available | readily biodegradable |
| 85% (phenol)  | 14 days                  | OECD 301C | No information available | readily biodegradable |

## 12.3 Bioaccumulative potential

### Octanol-water partition coefficient (log K<sub>ow</sub>)

| Value           | Concentration | pH | °C    | Method       | Evaluation | Note                            |
|-----------------|---------------|----|-------|--------------|------------|---------------------------------|
| -0,31 (ethanol) | -             | -  | -     | experimental | -          | bioaccumulation is not expected |
| 1.47 (phenol)   | -             | -  | 30 °C | ECHA         | -          | bioaccumulation is not expected |

### Bioconcentration factor (BCF)

| Value | Species | Method | Evaluation | Note |
|-------|---------|--------|------------|------|
|-------|---------|--------|------------|------|

|               |                                  |                      |              |          |   |
|---------------|----------------------------------|----------------------|--------------|----------|---|

|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1                           | Description of first aid measures                                                                                                                                                   |
| General notes:                | If the suggested first aid measures do not prove sufficient, seek medical attention.                                                                                                |
| Following inhalation:         | Carry the afflicted person out of the contaminated area into a well-ventilated area or out for fresh air. In case of difficult breathing, provide the afflicted person with oxygen. |
| Following skin contact:       | Remove contaminated clothing. Immediately wash with plenty of water for at least 20 minutes. Seek medical assistance if the symptoms of irritation remain.                          |
| Following eye contact:        | Rinse out with plenty of water with the eyelid held wide open for at least 20 minutes. If the symptoms remain, immediately call in ophthalmologist.                                 |

| Product code: | TBD-OT-X**            | Revision date: | 13 June 2019 | Version: 4 |

|     |                                             |                                                                                                                                                                              |
|-----|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | Packaging materials:                        | Manufacturer's original packaging.                                                                                                                                           |
|     | Requirements for storage rooms and vessels: | Keep away from food and drink. Keep the containers tightly closed.                                                                                                           |
|     | Advices for storage equipment:              | The storage must be made of hard material; floors must be resistant to chemicals. There must be no drain that directly leads into sewage system. Secure proper ventilation.  |
|     | Further information on storage conditions:  | Do not place the unused material in the storage room and do not use empty containers for storing other chemicals. Do not store with incompatible materials (see Section 10). |
| 7.3 | Specific end use(s)                         |                                                                                                                                                                              |

## 8.2 Exposure controls

### 8.2.1. Appropriate engineering controls

|                                                                                |                                                                                                                                                          |
|--------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Substance/mixture related measures to prevent exposure during identified uses: | Use the product in well ventilated rooms. Use personal protective equipment. Do not eat, drink or smoke in the workspace.                                |
| Structural measures to prevent exposure:                                       | In accordance with Section 7.                                                                                                                            |
| Organisational measures to prevent exposure:                                   | Organization of work in order to reduce other worker's influence during work process.                                                                    |
| Technical measures to prevent exposure:                                        | Secure proper workspace ventilation in order to keep concentration levels in air below permitted levels. Secure stations for rinsing eyes and showering. |

### 8.2.2. Personal protection equipment

|                                   |                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.2.2.1. Eye and face protection: | Safety glasses that stick to face (EN 166) or visor in case of lower levels of concentration in air; protective gas mask that covers the entire face in case of higher levels of concentration in air.                                                                                                                          |
| 8.2.2.2. Skin protection          |                                                                                                                                                                                                                                                                                                                                 |
| Hand protection:                  | The protective gloves have to satisfy the specification of Regulation (EU) 2016/425 and the related standard EN 374.<br>Glove material: nitrile rubber<br>Glove thickness: 0.40 mm<br>Time until perforation: > 480 min                                                                                                         |
| Other skin protection:            | During everyday work use cotton clothing (EN 340) and suitable footwear, such as rubber boots (EN 20345) or shoes that cover the entire foot. In case of spilling hazard, use clothing made of impermeable material suitable for protection from liquid chemicals (Viton, PVC, himex) and footwear made from the same material. |

|               |                       |                |              |            |

### SECTION 13. Disposal considerations

|      |                         |
|------|-------------------------|
| 13.1 | Waste treatment methods |
|------|-------------------------|

|         |                                                                                                            |
|---------|------------------------------------------------------------------------------------------------------------|
| 13.1.1. | Product/Packaging disposal:                                                                                |
|         | Submit for disposal to the legal person authorized by the Ministry of Environmental and Nature Protection. |

|         |                                                                                                    |
|---------|----------------------------------------------------------------------------------------------------|
| 13.1.2. | Waste codes/waste designations according to Law:                                                   |
|         | Packaging that contains residual hazardous substances or is contaminated with hazardous substances |

|         |                                         |
|---------|-----------------------------------------|
| 13.1.3. | Waste treatment – relevant information: |
|         | No information available                |

|         |                                                       |
|---------|-------------------------------------------------------|
| 13.1.4. | Sewage disposal – relevant information:               |
|         | Waste must not be disposed of into the sewage system. |

|         |                                                                                                                                                                                                                                                                                 |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 13.1.5. | Other disposal recommendations:                                                                                                                                                                                                                                                 |
|         | Do not dispose of the product's remains into the sewage system. Submit the remains to the collectors authorized by the ministry in charge. Do not dispose of the packaging into the sewage system. Submit the packaging to the collectors authorized by the ministry in charge. |

### SECTION 4. First aid measures

|                         |                                                                                                                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1                     | Description of first aid measures                                                                                                                                                                           |
| General notes:          | If the suggested first aid measures do not prove sufficient, seek medical attention.                                                                                                                        |
| Following inhalation:   | Carry the afflicted person out of the contaminated area into a well-ventilated area or out for fresh air. In case of difficult breathing, provide the afflicted person with oxygen.                         |
| Following skin contact: | Remove contaminated clothing. Immediately wash with plenty of water for at least 20 minutes. Seek medical assistance if the symptoms of irritation remain.                                                  |
| Following eye contact:  | Rinse out with plenty of water with the eyelid held wide open for at least 20 minutes. If the symptoms remain, immediately call in ophthalmologist.                                                         |
| Following ingestion:    | Rinse the oral cavity, drink 1-2 glasses of water. Immediately consult a physician and show the container or label. In case of swallowing large quantities, transport the afflicted person to the hospital. |

## 8.2 Exposure controls

### 8.2.1. Appropriate engineering controls

|                                                                                |                                                                                                                                                          |
|--------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Substance/mixture related measures to prevent exposure during identified uses: | Use the product in well ventilated rooms. Use personal protective equipment. Do not eat, drink or smoke in the workspace.                                |
| Structural measures to prevent exposure:                                       | In accordance with Section 7.                                                                                                                            |
| Organisational measures to prevent exposure:                                   | Organization of work in order to reduce other worker's influence during work process.                                                                    |
| Technical measures to prevent exposure:                                        | Secure proper workspace ventilation in order to keep concentration levels in air below permitted levels. Secure stations for rinsing eyes and showering. |

### 8.2.2. Personal protection equipment

|                                   |                                                                                                                                                                                                        |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.2.2.1. Eye and face protection: | Safety glasses that stick to face (EN 166) or visor in case of lower levels of concentration in air; protective gas mask that covers the entire face in case of higher levels of concentration in air. |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### 8.2.2.2. Skin protection

|                  |                                                                                                                                                                                                                     |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hand protection: | The protective gloves have to satisfy the specification of Regulation (EU) 2016/425 and the related standard EN 374.<br>Glove material: nitrile rubber<br>Glove thickness: 0.40 mm<br>Break through time: > 480 min |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                        |                                                                                                                                                                                                                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Other skin protection: | During everyday work use cotton clothing (EN 340) and suitable footwear, such as rubber boots (EN 20345) or shoes that cover the entire foot. In case of spilling hazard, use clothing made of impermeable material suitable for protection from liquid chemicals (Viton, PVC, himex) and footwear made from the same material. |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                  |                                                                                                                                                                                          |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.2.2.3. Respiratory protection: | Suitable mask (EN 136) or half mask (EN 140) equipped with a filter for organic vapors, type "A" (boiling point >65°C) according to EN 14387) used when concentration levels exceed GVI. |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                           |                          |
|---------------------------|--------------------------|
| 8.2.2.4. Thermal hazards: | No information available |
|---------------------------|--------------------------|

### 8.2.3. Environmental exposure controls

|                                                         |               |
|---------------------------------------------------------|---------------|
| Substance/mixture related measures to prevent exposure: | See Section 6 |
|---------------------------------------------------------|---------------|

| Trading name: | <b>METHYLENE BLUE LOEFFLER'S REAGENT</b> |                      |              |            |
| Product code: | MBL-OT-X**                               | Date of compilation: | 13 June 2019 | Version: 8 |

|                                              |                                                                             |
|----------------------------------------------|-----------------------------------------------------------------------------|
| Structural measures to prevent exposure:     | Use modern equipment.                                                       |
| Organisational measures to prevent exposure: | Adapt the work process to the required working conditions of the workplace. |
| Technical measures to prevent exposure:      | See Section 6                                                               |

| <b>SECTION 9. Physical and chemical properties</b> |                                                       |                          |                          |

| Product code: | MBL-OT-X**                               | Date of compilation: | 13 June 2019 | Version: | 8 |

| <b>SECTION 10. Stability and reactivity</b> |                                     |                                                                                                                           |
|---------------------------------------------|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| 10.1                                        | Reactivity:                         | See subsections 10.3 through 10.5.                                                                                        |
| 10.2                                        | Chemical stability:                 | The product is chemically stable under standard ambient conditions of storing and using.                                  |
| 10.3                                        | Possibility of hazardous reactions: | Risk of explosion after contact with strong acids, alkali metals, alkali metal oxides, nitric acid, oxidizing substances. |
| 10.4                                        | Conditions to avoid:                | High temperatures, ignition sources, open flame.                                                                          |
| 10.5                                        | Incompatible materials:             | Oxidants, acids, alkali metals.                                                                                           |
| 10.6                                        | Hazardous decomposition products:   | Non-degradable if used in the described manner.                                                                           |

| SECTION 11. Toxicological information                       |                          |                           |                                                               |               |             |
|-------------------------------------------------------------|--------------------------|---------------------------|---------------------------------------------------------------|---------------|-------------|
| 11.1 Information on toxicological effects                   |                          |                           |                                                               |               |             |
| Acute toxicity:                                             |                          |                           |                                                               |               |             |
